Population Projections

Source: 2008-based sub national population projections, Office for National Statistics/Bucks Strategic Partnership (BSP) population projections October 2010

National population projections are not available at ward level but based on the latest national population projections South Bucks District is predicted to have a population increase of 25.9% over the next 25 years from 65,700 to 82,700 in 2033. The projections are trend based which means assumptions for future levels of births, deaths and migration are based on observed levels (they do not take into account any future policy changes that have not yet occurred). Within these figures based on projections for the district from 2008 to 2033:

- the 0-19 age group is predicted to rise by 20.1% (England 10.4%);
- the 20-64 age group by 15.5% (England 8.3%); and
- the 65+ age group by 63.9% (England 65.3%).

Local population projections at district and ward level (commissioned by Bucks CC) have been produced which take account of additional datasets including housing provision in the area and other local inputs. These put the population at 67,550 in 2026 (a difference of over 11,000 from the national projections for 2026). The projections cover a different time period and the age group breakdown is different. The significant variances between the projections means caution needs to be applied when using these figures as a realistic figure is more likely to fall somewhere between the two predictions (further information about both sets of projections can be found on KnowledgeSource).

Based on the BSP projections for Hedgerley and Fulmer the estimated population is forecasted to rise from 1,400 in 2009 to 1,450 in 2026 an increase of 3.6%. Looking at a split down by age group based on projections for the ward from 2009 to 2026:

- the 0-17 age group is predicted to decrease from 350 to 300 (-14.3%)
- 18—retired* age group is predicted to decrease from 750 to 700 (-6.7%)
- retired* + age group is predicted to rise from 350 to 450 (28.6%)

(*retired is 60 for females and 65 for males)

Migrant Workers

Source: DWP 2010, Local Area Migration Indicators table from Office of National Statistics

Overseas nationals obtain a National Insurance (NI) Number before they enter into employment or upon starting work, so registrations data can be a good indication of new arrivals who are economically active. (Some foreign nationals do obtain a NI number but do not take up employment e.g. refugees will need an NI number but will not all be economically active.)

These figures are only available at district level and do not go down to ward level.

The top 6 nationalities for overseas nationals who are issued a National Insurance number entering South Bucks in 2010 were Poland, India, Australia, Germany, Italy and Spain.

Acorn Data

Source: Acorn Data 2010, produced by CACI.

Acorn Data provides useful data about the characteristics of people based on the postcode in which they live. Using data from a range of sources, every postcode is classified into one of 5 categories, which split down into further groups. This data provides useful information to start to understand the feelings, behaviours and expectations of each group. N.B All category names are already defined on the database.

Area	Wealthy Achievers	Urban Prosperity	Comfortably Off	Moderate Means	Hard Pressed	No Classification
Hedgerley and Fulmer	83.5%	3.3%	11.0%	0.0%	2.2%	0.0%
South Bucks	60.3%	10.9%	21.6%	2.1%	3.8%	1.3%

Looking at the five main categories it shows that Hedgerley & Fulmer has a higher percentage of 'Wealthy Achiever' households than the District average by 23.2%. The tables below provide a detailed split down into smaller groupings which provide an idea of the type of households within each category.

Category 1 - Wealthy Achievers	Ward %	District %
Wealthy Mature Professionals	27.5%	24.2%

Deprivation

Source: *Indices of Multiple Deprivation 2010, CLG.*

The Indices of Multiple Deprivation 2010 (IMD 2010) is a measure of deprivation at the small area level—Lower Super Output Area (LSOA). England is split into 32,482 LSOAs, LSOAs have a minimum population of 1000, and overall average population of 1500, and were ranked to create the IMD. All of the LSOAs in England are ranked, the LSOA ranked 1 by the IMD 2010 is the most deprived and the LSOA ranked 32,482 is the least deprived.

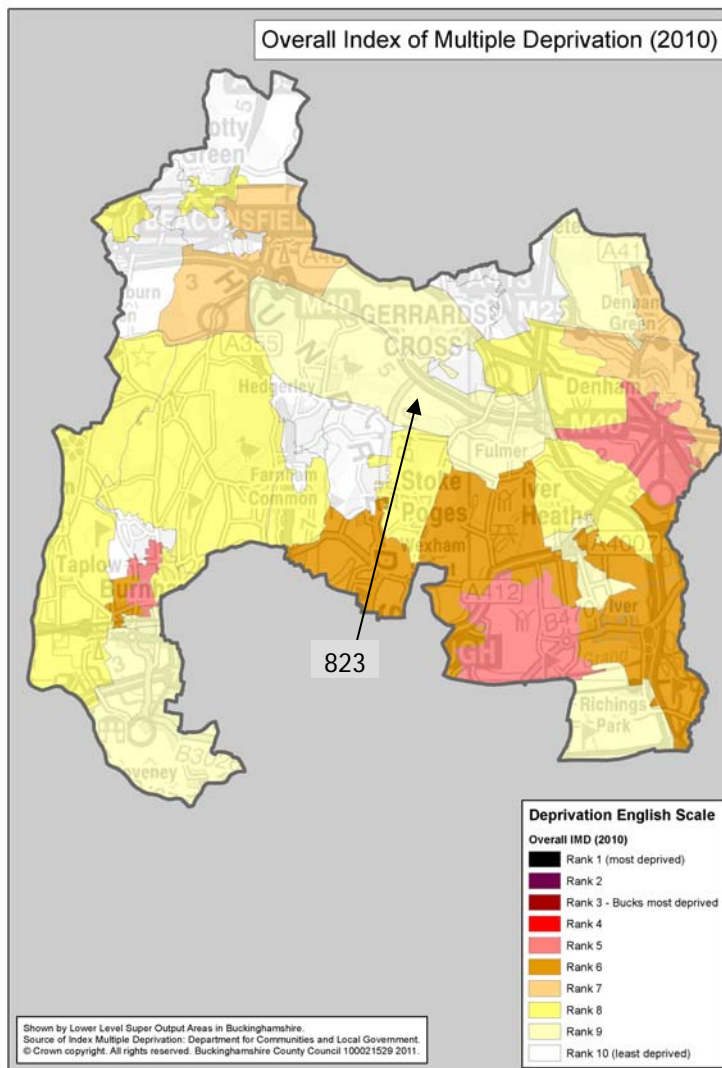

- Hedgerley & Fulmer Ward is made up of 1 LSOA (823 —locations shown on the map).

The IMD model is based on 7 distinct dimensions of deprivation which are then given a weighting to work out an overall ranking for deprivation as the table below shows.

Domain	Weighting
Income Deprivation	22.5%
Employment Deprivation	22.5%
Health Deprivation & Disability	13.5%
Education, Skills & Training Deprivation	13.5%
Barriers to Housing and Services	9.3%
Crime & Disorder	9.3%
Living Environment Deprivation	9.3%

The different domains

All Crime	596	688	15.4%	644	-6.4%	6323	5809	-8.1%	4843	-16.6%

Crime statistics for the District are produced by Thames Valley Police on a monthly basis and should be used for up to date trend information. There are some differences between the neighbourhood police area figures and the overall South Bucks figures due to different timelines in producing the report and crimes that are reclassified over the reporting period.

When using this Ward Profile please note that information is taken from a variety of sources and SBDC can not vouch for its accuracy & reliability. Many statistics come from the 2001 Census so this should be taken into account when utilising these figures as these are now 10 years old.
