

Protect your garden

Unfortunately garden crime is a reality and garden tools left out can be seen as easy pickings for opportunist thieves. According to police statistics, the most likely items to be stolen are mowers, strimmers, chain saws, hedge trimmers, garden furniture and plants.

Nature herself provides one of the best solutions to many garden crimes. With careful thought and planning you can reduce the risk of becoming a victim of garden crime, whilst at the same time creating an attractive garden. For instance you can create an impenetrable hedge, which looks far more attractive than security fencing but is just as effective.

Planting prickly shrubs around vulnerable windows can also serve as a deterrent to the burglar. By careful planning you can produce a beautiful garden and reduce the risk of being the next victim of garden crime.

Criminals do not like climbing through prickly plants and hedges. They know that a small item of ripped clothing or blood can help the police identify them. For a full list of defensive plants please visit:
